

Shiawassee River Heritage Water Trail

Vision for the Shiawassee River Heritage Water Trail

We envision a developed paddling trail from Holly to the Shiawassee Plateau that will allow residents and tourists to enjoy the Shiawassee River and the communities along its course.

We believe to great progress toward the Vision Withers and Shaver the Shiawassee called for us work to protect the integrity of the trail as a valuable natural and community resource.

What is a Heritage Water Trail?

Heritage water trails are routes on navigable waterways such as rivers, lakes, and canals designed and implemented to foster an interactive historical education experience.

Water Trails are the water equivalent to hiking trails. They are created to facilitate recreation as well as using rivers and water bodies and are based to reflect settings as well as historic circumstances.

Who We Are

The Water Trail Committee is a volunteer committee supported by local economic professionals. The committee organizes water trail programs from the communities of Lodi, Pontiac, and Argos.
